WHAT LINE-UPS DO WE OFFER?

When we say we can cater to any event, we really do mean it! We have line-ups ranging from Solo Acoustic, Duos, Full Bands and even DJ's with added extras like saxophone and bongos! Take a look through or suggested available line-ups. If you have something in mind that you're interested in but can't see, just get in touch to see if it's possible.

SOLO ACOUSTIC

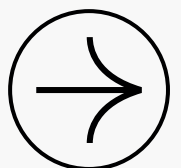

A perfect accompaniment for drinks receptions, ceremonies, background music during the wedding breakfast or for most scenarios really! Ben is our main performer for this line-up playing acoustic guitar and singing.

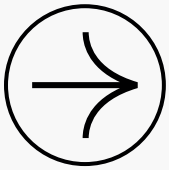

We would normally suggest this option if you're after a relaxed background atmosphere or to highlight special moments like walking down the aisle. It's also a great choice to warm up the guests before a DJ or band. Due to being just one person it's also an extremely compact and versatile option if you're tight on space or have an unusual layout without too much room for a larger setup!

Instruments on offer:

Our main option for our solo line-up is solo acoustic guitar and singing but we do also offer "Cocktail Piano" from our keys player James. If you're interested in this please let us know.

DUO

This is probably our most versatile option as it can really work during any part of the day. Ben is at the core of this line-up playing acoustic guitar and singing paired with an additional player. Our most popular and recommended pairing would be with drums.

This option is absolutely ideal as a warm up to the evening entertainment whilst also packing enough of a punch to have the option of being the main entertainment! The duo has a very compact setup so fits in almost any space. The addition of a second player adds an element of extra energy and sound to get people moving on the dance floor. An extremely popular option is to book the duo with our DJ for your evening entertainment.

Perfect for when you're after a big sound in a small package.
